difficulty addition subtraction

Helping Others

Tyson called his friend Brian and wanted to know if he could come over to his house to play. Brian was having difficulty getting his math homework done because he didn't understand how to do addition and subtraction. Brian knew he needed to be responsible and finish his homework before he went to play. Tyson decided to lend Brian a helping hand and go over to his house to teach Brian how to do his math. Tyson did not do Brian's math for him, but he showed him how to do it so he would be able to do it on his own next time. Tyson was being a very good friend to Brian.
